Florida Highway Patrol
Captain Carlos Vazquez
11305 N. McKinley Dr.
Tampa, FL 33612

Dear Captain Vazquez,

I am writing to inform you of the excellent job Trooper J.J Hinson did in responding and handling the incident I was involved in on I 275 with an aggressive driver and hit and run.

He responded to my call into 911 after a driver swerved into my vehicle, hit my vehicle and then continued driving, coming from Ulmerton onto 275 North. I had my 9 month old son in the car and was coming back from filling in for coaching a diving team in Largo. He reassured me that everything would be fine and in a situation that was very scary for me and my little boy Trooper Hinson made sure we were both ok.

Trooper Hinson followed up with me to ID the suspect and has always been prompt and courteous in following up with me about things going on with my incident and what to expect. I know that each State Trooper is very busy covering many miles each day.

It is a relief to know that despite dealing with numerous calls each day the Troopers are still prompt, professional and courteous in their work. Having a child of my own now can change the way we think about things and see things. As dangerous as this world can be, it is a relief to know that we still have excellent State Troopers working for us.

Thank you for your time and Gob Bless you and your Officers.

Sincerely,

Amy Mann
